

## QA Automation Engineer

Software AG Development Center Bulgaria, a subsidiary of Software AG, is one of the fastest growing software companies in Bulgaria. We have established a technology development office in the heart of Sofia focused on development and enhancement of our SOA suite.

We are looking for **QA Automation Engineer** to join the team developing our **Business Activity Monitoring product**. The development team consists of highly experienced software engineers following AGILE principles. The successful candidate will develop, execute, and maintain automated test cases designed for functional, system, internationalization, and regression testing.

### Responsibilities:

- Proactively contribute to overall testing efforts for all major, minor, and maintenance releases of a product to ensure they perform as designed;
- Design and implement new automated tests;
- Execute Cross product regression testing and participates in certification efforts.

### Requirements:

- IT Related University degree, or equivalent experience;
- 2+ years software product QA automation testing experience - Selenium, QFT, Gradle(Ant);
- Good experience with automation tools and frameworks;
- Excellent written and verbal communication skills in English

### Special knowledge as an advantage:

- Java knowledge would be an advantage;

### Our Offer

- Competitive salary with additional social and medical benefits
- Work-life balance - 25 days of vacation, flexible working hours
- Possibilities for carrier advancement and personal development in wide range of areas
- Friendly working environment in a team of motivated and professional people

### Our Profile

Software AG is the global leader in Business Process Excellence. We are offering software and service solutions for process strategy, design, integration and control; SOA-based integration and data management; process-driven SAP implementation; and strategic process consulting and services. Our industry-leading brands, ARIS, webMethods, Adabas, Natural, Centrasite represent a unique portfolio. Software AG has 4,400+ employees in 70 countries and is a software enterprise solutions leader in 14 market categories. We believe that our people are our key competitive advantage. We strive to create a team-oriented environment that fosters high performance and productivity, respect, security, reward, and career development, while offering a balance between work and personal life.
